Journal of Dentistry, 5, No. 4, 1977, pp. 357–360. *Printed in Great Britain*

INDEX

Volume 5 Numbers 1–4 March–December 1977

Abel G.: *see* Wilson A. D. jt auth.
Acid-etch technique, simplified, for restoration of fractured incisors, 207
Acrylic resin repairs, self-curing, do [they] gain strength with age, 334
Alumina, high purity, grinding technique, surface texture and strength of vitreous carbon and, 219
Alveolar nerve, inferior, successful retrieval of endodontic material from, 47
Amalgam, method for reclaiming, from extracted teeth, 190
Amalgamation reaction, stoichiometry of, 149
Anaesthetic solutions, local, temperature of, 213
Anthropometric measurements, role of, in design of complete dentures, 141
Anti-bacterial properties of chewing sticks, preliminary studies on, 123
Asuquo B. I. and Montefiore D.: Preliminary studies on the anti-bacterial properties of chewing sticks, 123

Bates J. E., Stafford G. D., Huggett R. and Handley R. W.: Current status of pour type denture base resins, 177
Belton E. L.: *see* Harrison A. jt auth.
Binnie W. H.: *see* Davis R. jt auth.
Bond strengths, in vitro composite, effect of enamel bonding agents on, 295
Book Reviews (*see* Reviews)
Bradford E. W.: *see* Marentis C. jt auth.
Breakspere R. J., Tranter T. C. and Weldon L. H. P.: A preliminary examination of some of the factors affecting fissure sealant behaviour, 57

Carbon, vitreous, grinding technique, surface texture and strength of, and high purity alumina, 219
Caries prevalence, relative, study of, in first and second permanent molars of rural Zambian schoolchildren, 42
Cawson R. A.: *see* Davis R. jt auth.
Cements, glass-ionomer, characterization of, 51, 117
Cephalometric radiology, role of xeroradiography in, 32
Chewing, evolution of: dentist's view of palaeontology, 269
Chewing lesion of cheeks and lips: its features and prevalence among selected group of adolescents, 193
sticks, preliminary studies on anti-bacterial properties of, 123
Child, preschool, preparing, for visit to dentist, 231
Crisp S., Lewis B. G. and Wilson A. D.: Characterization of glass-ionomer cements, 51
Crisp S.: *see also* Wilson A. D. jt auth.
Composite bond strengths, in vitro, effect of enamel bonding agents on, 295
materials, current, some properties of, 85
resin restorations, adaptation of, to etched dentine, 200
resin restorations: clinical assessment of two materials, 319
Conservative dentistry, sedation for: further studies on inhalation sedation with 25 per cent nitrous oxide, 245

Darvell B. W.: Stoichiometry of the amalgamation reaction, 149
Davis R., Binnie W. H., Cawson R. A., Reed R. T. and Stacey A. J.: The role of xeroradiography in cephalometric radiology, 32
Dayal P. K.: *see* Vijayavergia N. K. jt auth.
Dental laboratories, commercial, prosthetic technology in, in United States, 131
materials: 1975 literature review, 1
materials, simple thermal cycling device for testing, 39
practice, changing pattern of, in South Wales, 1965–74, 99
profession, training, practice and feelings of, in Southend, 113
service, regional paediatric hospital, 67
Dentine, etched, adaptation of composite resin restorations to, 200
Dentist(s), preparing preschool child for visit to, 231
women, in Wales, 107
Denture(s) base resins, pour type, current status of, 177
complete, role of anthropometric measurements in design of, 141
partial, biomechanical aspects of support of, 310
Distal extension prosthesis reappraised, 227

Dry socket, incidence of, following use of occlusive dressing, 288

Eccles J. D. and Powell M.: The changing pattern of dental practice in South Wales, 1965–74, 99
Eccles J. D.: *see also* Whitehead C. jt auth.
Edmunds D. H. and Rosen M.: Sedation for conservative dentistry: further studies on inhalation sedation with 25 per cent nitrous oxide, 245
Elliot R. H.: *see* Stewart D. J. jt auth.
Enamel bonding agents, effect of, on in vitro composite bond strengths, 295
Enamel–composite bonds, shear strength of, 237
Endodontic material, successful retrieval of, from inferior alveolar nerve, 47
Etched dentine, adaptation of composite resin restorations to, 200
Evolution of chewing: dentist's view of palaeontology, 269

Fanibunda K. B.: Foreign body in the soft palate: a case report, 121
Fanibunda K.: *see* Wood G. D. jt auth.
Farman A. G.: *see* Van Wyk G. W. jt auth.
Fissure sealant behaviour, preliminary examination of some factors affecting, 57
Foreign body in soft palate: case report, 121
Forman G. H. and Rood J. P.: Successful retrieval of endodontic material from the inferior alveolar nerve, 47
Fractured incisors, simplified acid-etch technique for restoration of, 207

Geissler P. R. and McKinlay K. M.: A two-part prosthesis for edentulous patients following maxillectomy, 331
Gibbs A.: *see* Hindle M. O. jt auth.
Glass-ionomer cements, characterization of, 51, 117
Green R. V., Meilman P., Routh D. K. and McIver F. T.: Preparing the preschool child for a visit to the dentist, 231

Handley R. W.: *see* Bates J. F. jt auth.
Harrison A., Belton E. L. and Meades K.: Do self-curing acrylic resin repairs gain strength with age?, 334
Harrison A., Huggett R. and Hunt H. H.: Prosthetic technology in commercial dental laboratories in the United States, 131
Hill F. J. and Soetopo: A simplified acid-etch technique for the restoration of fractured incisors, 207
Hindle M. O. and Gibbs A.: The incidence of dry socket following the use of an occlusive dressing, 288
Hobkirk J. A.: Grinding technique, surface texture and strength of vitreous carbon and high purity alumina, 219
Hospital dental service, regional paediatric, 67
Huggett R.: *see* Bates J. F. jt auth., Harrison A. jt auth.
Hunt H. H.: *see* Harrison A. jt auth.

Impaction, unusual form of, of two permanent molars: case report, 215
Incisor(s), fractured, simplified acid-etch technique for restoration of, 207
  teeth, permanent maxillary central, mesiodistal diameter of, and their prosthetic replacements, 93
Inflammation, acute, use of buffered lignocaine solution in presence of, 128
Inhalation sedation, further studies on, with 25 per cent nitrous oxide: sedation for conservative dentistry, 245

Jones P. A., McCabe J. F. and Spence D.: Some properties of current composite materials, 85
Joshi M. R.: *see* Vijayavergia N. K. jt auth.

Kenny B.: *see* Rider M. jt auth.
Kernohan D. C.: *see* Stewart D. J. jt auth.

Letters to the Editor, 293
Lewis B. G.: *see* Crisp S. jt auth.
Lignocaine solution, buffered, use of, in presence of acute inflammation, 128
Lumsden A. G. S. and Osborn J. W.: The evolution of chewing: a dentist's view of palaeontology, 269

McCabe J. F.: *see* Jones P. A. jt auth.
McKinlay K. M.: *see* Geissler P. R. jt auth.
Manderson R. D.: *see* Wills D. J. jt auth.
Mandible, extreme resorption of: case report, 73
Marentis C. and Bradford E. W.: The adaptation of composite resin restorations to etched dentine, 200
Maxillectomy, two-part prosthesis for edentulous patients following, 331
Meades K.: *see* Harrison A. jt auth.
Mesiodistal diameter of permanent maxillary central incisor teeth and their prosthetic replacements, 93
Molar(s), first and second permanent, study of relative caries prevalence in, of rural Zambian schoolchildren, 42
  two permanent, unusual form of impaction of: case report, 215
Montefiore D.: *see* Asuquo B. I. jt auth.
Morley F. and Stockwell P. B.: A simple thermal cycling device for testing dental materials, 39

Nitrous oxide, 25 per cent, further studies on inhalation sedation with: sedation for conservative dentistry, 245

Occlusive dressing, incidence of dry socket following use of, 288
Orthopantomograms, unusual radiographic findings from: 2 case reports, 327
Osborn J. W.: *see* Lumsden A. G. S. jt auth.

Paediatric hospital dental service, regional, 67
Panoussopoulous P.: Extreme resorption of the mandible: a case report, 73
Partial dentures, biomechanical aspects of support of, 310
Pielou W. D.: *see* Stewart D. J. jt auth.
Powell M.: *see* Eccles J. D. jt auth., Whitehead C. jt auth.
Premolar-form supernumerary teeth, bilateral functioning, distal to maxillary permanent first molars, 76
Preiskel H. W.: The distal extension prosthesis reappraised, 227
Prosthesis, distal extension, reappraised, 227
two-part, for edentulous patients following maxillectomy, 331
Prosthetic replacements, mesiodistal diameter of permanent maxillary central incisor teeth and, 93
Prosthetic technology in commercial dental laboratories in United States, 131

Quarterly Dental Review Abstracts, 85, 161, 255, 339

Radiographic findings, unusual, from orthopantomograms: 2 case reports, 327
Radiology, cephalometric, role of xeroradiography in, 32
Reed R. T.: *see* Davis R. jt auth.
Resins, pour type denture base, current status of, 177
Resorption, extreme, of mandible: case report, 73
Restoration(s), composite resin, adaptation of, to etched dentine, 200
composite resin: clinical assessment of two materials, 319
of fractured incisors, simplified acid-etch technique for, 207
Reviews
Advanced dental histology, 3rd ed. (J. W. Osborn and A. R. Ten Cate), 253
Clinical dental anaesthesia. A manual of principles and practice (J. M. Bell), 82

CONTENTS OF VOLUME 5

NUMBER 1

Dental materials: 1975 literature review — *N. E. Waters (ed.)* — 1

The role of xeroradiography in cephalometric radiology — *R. Davis, W. H. Binnie, R. A. Cawson, R. T. Reed and A. J. Stacey* — 32

A simple thermal cycling device for testing dental materials — *F. Morley and P. B. Stockwell* — 39

A study of the relative caries prevalence in first and second permanent molars of rural Zambian schoolchildren — *Katherine Westwater* — 42

Successful retrieval of endodontic material from the inferior alveolar nerve — *G. H. Forman and J. P. Rood* — 47

Characterization of glass-ionomer cements — *S. Crisp, B. G. Lewis and A. D. Wilson* — 51

A preliminary examination of some of the factors affecting fissure sealant behaviour — *R. J. Breakspere, T. C. Tranter and L. H. P. Weldon* — 57

A regional paediatric hospital dental service — *D. J. Stewart, R. H. Elliott, D. C. Kernohan, W. D. Pielou and I. D. Saunders* — 67

Extreme resorption of the mandible: a case report — *P. Panoussopoulous* — 73

Bilateral functioning premolar-form supernumerary teeth distal to the maxillary permanent first molars — *N. K. Vijayavergia, P. K. Dayal and M. R. Joshi* — 76

Book Reviews — 79

Quarterly Dental Review Abstracts — 85

NUMBER 2

Some properties of current composite materials — *P. A. Jones, J. F. McCabe and D. Spence* — 85

The mesiodistal diameter of permanent maxillary central incisor teeth and their prosthetic replacements — *C. Martin Woodhead* — 93

The changing pattern of dental practice in South Wales, 1965–74 — *J. D. Eccles and M. Powell* — 99

Women dentists in Wales — *C. Whitehead, C. Williams, J. D. Eccles and M. Powell* — 107

The training, practice and feelings of the dental profession in Southend — *Peter Sims* — 113

Characterization of glass-ionomer cements — *A. D. Wilson, S. Crisp and G. Abel* — 117

Foreign body in the soft palate; a case report — *K. B. Fanibunda* — 121

Preliminary studies on the antibacterial properties of chewing sticks — *B. I. Asuquo and D. Montefiori* — 123

The use of buffered lignocaine solution in the presence of acute inflammation — *J. P. Rood* — 128

Prosthetic technology in commercial dental laboratories in the United States — *A. Harrison, R. Huggett and H. H. Hunt* — 131

The role of anthropometric measurements in the design of complete dentures — *M. M. Sawiris* — 141

Stoichiometry of the amalgamation reaction — *B. W. Darvell* — 149

Book Reviews — 158

Quarterly Dental Review Abstracts — 161

NUMBER 3

Current status of pour type denture base resins
J. F. Bates, G. D. Stafford, R. Huggett and R. W. Handley 177
A method for reclaiming amalgam from extracted teeth
G. D. Wood and K. Fanibunda 190
The chewing lesion of the cheeks and lips: its features and prevalence among a selected group of adolescents
C. W. Van Wyk, J. Staz and A. G. Farman 193
The adaptation of composite resin restorations to etched dentine
C. Marentis and E. W. Bradford 200
A simplified acid-etch technique for the restoration of fractured incisors
F. J. Hill and Soetopo 207
The temperature of local anaesthetic solutions *J. P. Rood* 213
An unusual form of impaction of two permanent molars: a case report
Jeffrey J. Watkins and G. J. Tucker 215
Grinding technique, surface texture and strength of vitreous carbon and high purity alumina *J. A. Hobkirk* 219
The distal extension prosthesis reappraised *H. W. Preiskel* 227
Preparing the preschool child for a visit to the dentist
Roy V. Green, Philip Meilman, Donald K. Routh and F. Thomas McIver 231
The shear strength of enamel-composite bonds *Marion Rider* 237
Sedation for conservative dentistry: further studies on inhalation sedation with 25 per cent nitrous oxide *D. H. Edmunds and M. Rosen* 245
Book Reviews 252
Quarterly Dental Review Abstracts 255

NUMBER 4

The evolution of chewing: a dentist's view of palaeontology
A. G. S. Lumsden and J. W. Osborn 269
The incidence of dry socket following the use of an occlusive dressing
M. O. Hindle and Alan Gibbs 288
The effect of enamel bonding agents on in vitro composite bond strengths
Marion Rider, B. Kenny and A. N. Tanner 295
A study of the viscosity of saliva at different shear rates in dentate and edentulous patients *B. J. Roberts* 303
Biomechanical aspects of the support of partial dentures
D. J. Wills and R. D. Manderson 310
Composite resin restorations: a clinical assessment of two materials
R. J. Smales 319
Unusual radiographic findings from orthopantomograms: 2 case reports
Jeffrey J. Watkins 327
A two-part prosthesis for edentulous patients following maxillectomy
P. R. Geissler and K. M. McKinlay 331
Do self-curing acrylic resin repairs gain strength with age?
A. Harrison, E. L. Belton and K. Meades 334
Quarterly Dental Review Abstracts 339
Index 357
